Introduction

This Test summary report is used to clarify the testing activities that happened for the previous Web Application Build of the Orange HRM application in the period from 22/03/2026 to 04/04/2026 .

The goal of this report is to show the following :

- **Status of test cases executed**
- **Defect found & their status**
- **Suggestions for next period of testing**

Test Case Execution

This is the status of all the test cases that are run on the Web application:

Test Case Status	Build Result
Total Number of TCs	165
Passed TCs	153
Failed TCs	12
Blocked/Skipped TCs	0

Defect Status for Web Application

This table lists the number of defects in the Web application based on their priority.

Defect Status	Build Defect
Total Number	12
Critical	0
Major	0
Minor	12

Testing suggestions for next period

- I suggest that a defect tracking tool like jira is used in writing defects so that the defect is tracked from reporting to resolving. This will reduce the time required to write new defect reports for each Build.
